CARDIOVASCULAR SUPPORT PROGRAM

Your pet's heart is one of the most critical organs, continuously pumping to circulate oxygenated blood to every body cell. If disease interrupts your pet's normal heart function, their entire body can be compromised.

REDUCE INFLAMMATION

Consuming a balanced amount of Omega-6/Omega-3 fatty acids (also known as a lower Omega-6/Omega-3 ratio) can provide a number of health benefits.

The EPA and DHA help maintain cardiovascular health, promote healthy serum triglyceride levels, and enhance cognitive health. The DHA helps with proper brain function by influencing the neural membranes.

MUSHROOM SUPPLEMENTS

Breathe is our premium respiratory and cardiovascular-supporting mushroom formula. Our medicinal mushroom extracts are hot water tripled extracted from the fruiting bodies of fungi cultivated and wild-harvested in North America.

[SHOP BREATHE](#)

C60 neutralizes the free radicals in animals that cause oxidative stress. By scavenging free radicals and neutralizing free radicals, C60 allows your pet to heal naturally.

SUPPORT GUT FUNCTION

Health Starts In The Gut.

The gut's microbiome (bacterial inhabitants) are the foundation of overall good body health. Help keep your dog's gut healthy in order to help reduce inflammation that can cause pain, stiffness and discomfort in the body.

(for pets with beef allergy)

WHOLE BODY SUPPORT

Glandular supplements can be a vital component of a fully balanced diet. Many essential nutrients cannot be obtained from plants and meats alone.

A high-quality gland-based multivitamin can fill in all of the missing holes in your pet's diet, and support the endocrine system with essential raw materials to keep it working efficiently.
