

STRESS & NERVOUSNESS SUPPORT PROGRAM

Stress-Related Behavior is becoming more and more common. You know there are other options than prescription medications that just sedate your dog.

Here are my best tips to help your pet be calmer.

REDUCE STRESS

Liquid NutriCalm has been my go-to product to help reduce stress and anxiety for dogs and cats. Use before a known stressful event such as thunderstorms, car rides, vet visits, etc. or on an everyday basis for pets new to your home, or pets with generalized anxiety.

IMPROVE GUT FUNCTION

Health Starts In The Gut.

The gut's microbiome (bacterial inhabitants) can have a direct effect on the nervous system and can therefore contribute to behavioral issues.

Dogs given probiotic supplements can respond better to external stressors and are generally able to maintain a more positive emotional state.

REDUCE INFLAMMATION

One major breakthrough in recent years for both people and dogs is the use of a supplement humans have taken for years, fish oils. Omega-3 fatty acids may be the key to reducing anxiety in dogs.

The EPA and DHA help maintain cardiovascular health, promote healthy serum triglyceride levels, and enhance cognitive health. The DHA helps with proper brain function by influencing the neural membranes.
