

BONE & JOINT SUPPORT PROTOCOL

Dogs' requirements change as they get older. Paying attention to the effects of aging will assist you in making your dog more comfortable as he gets older.

BONE & JOINT SUPPORT

For dogs with any joint or ligament injury, certain supplements can help. Glucosamine will help with inflammation of the joints

- [Arthri-Pawz \(Glucosamine & Boswellia Extract\)](#)

Ligaplex II supports tissue and joints to maintain connective tissue health, especially for long-term support.* Provides the foundation to feed the musculoskeletal system and facilitate freedom of movement

- [Ligaplex® II](#)

If your dog or cat is in a lot of pain, there are new studies that point to CBD products that can also help with pain associated with arthritis.

REDUCE INFLAMMATION

Consuming a balanced amount of Omega-6/Omega-3 fatty acids (also known as a lower Omega-6/Omega-3 ratio) can provide a number of health benefits.

The EPA and DHA help maintain cardiovascular health, promote healthy serum triglyceride levels, and enhance cognitive health. The DHA helps with proper brain function by influencing the neural membranes.

- [Crockpet Fish Oil](#)
- [Calamari Omega-3 Liquid](#)

Turmeric and Curcumin help relieve joint aches and pains while protecting your pets' digestive and immune systems.

- [Herbal Turmeric Curcumin](#)

The [Assisi Loop](#) is an effective treatment for arthritis in dogs, cats, and horses. The Assisi Loop® offers all animals a safe pain management technology that can be used as a stand-alone therapy or in conjunction with the treatment plan your veterinarian has in place

SUPPORT GUT FUNCTION

Health Starts In The Gut.

The gut's microbiome (bacterial inhabitants) can have a direct effect on the nervous system and can therefore contribute to behavioral issues.

Dogs given probiotic supplements can respond better to external stressors and are generally able to maintain a more positive emotional state.

- [Fidospore](#)
- [Megasporebiotic](#) (for pets with beef allergy)

OPTIMAL NUTRITION

The Foundation of health is a healthy whole foods diet, not Highly processed chicken and corn. If you haven't started home-cooking for your pet. The Original CrockPet Diet is the safest, healthiest and easiest diet for dogs and cats to make at home. The Original CrockPet Diet is also complete and balanced for all life stages according to AAFCO standards.

- [The Original CrockPET Diet for Dogs and Cats](#)

WHOLE BODY SUPPORT

Glandular supplements can be a vital component of a fully balanced diet. Many essential nutrients cannot be obtained from plants and meats alone.

A high-quality gland-based multivitamin can fill in all of the missing holes in your pet's diet, and support the endocrine system with essential raw materials to keep it working efficiently.

KEEP YOUR PETS MOVING

Movement is one of the most overlooked Health Span Increasers. We know exercise is good for us, keeps our joints supple, our brains and GI tracts functioning smoothly, and our Muscles strong.

The same is true for our furbabies. Commit to adding movement and exercise into your pet's life, even if it's just 5 minutes a day. To keep your pet from getting stiff, Do Tui Na at least 2 times a week to help keep your pet limber. Passive stretching can help pets maintain flexibility.
