

# KIDNEY SUPPORT PROGRAM

Kidney Enzyme elevation is very common, but most vets tell you your pet is in kidney failure. Kidney Disease is scary, but there are methods and products that can help slow the progression of the disease. **Here's Dr. Ruth's 5-step treatment plan.**

## #1 DECREASE INFLAMMATION

PEMF therapy works by directing small amounts of energy toward a specific part of your pet's body via a specialized magnetic device. This type of therapy has been used to treat acute and chronic pain. It also helps reduce inflammation.

[SHOP HEAL: FOR CATS](#)

Omega-3 fatty acids have anti-inflammatory properties. Supplementation of high omega-3 fatty acids can help support dogs and cats with chronic kidney disease by reducing protein loss in the urine (proteinuria), reducing hypertension at the level of the kidney, and decreasing inflammatory changes within renal tissues.

[SHOP CROCKPET FISH OIL](#)

## #2 INCREASE WATER CONSUMPTION

A Well-hydrated pet means a better blood flow to the kidneys. Encourage your pet to drink more by flavoring water or by feeding a moisture-rich diet food like the **crockpet diet**.

The Original CrockPet Diet is also complete and balanced for all life stages according to AAFCO standards.

## #3 IMPROVE NUTRITION QUALITY

The Comprehensive Kidney Health Program for Dogs and Cats was created to add more years to your pet's life, improve kidney health, and alleviate your cat or dog's discomfort caused by kidney disease and renal failure.

[SIGN UP](#)

## #4 SUPPORT GUT HEALTH

Help restore the gut with probiotics. As you strengthen the gut, physical and mental well-being may improve. Keeping the bacteria in the gut balanced and in a harmonious environment will help build your pet's immunity to better fight off or battle disease and infection.

[FIDOSPORE](#)

[MEGASPORE](#)

(for pets with beef allergy)

## #5 HELP IMPROVE KIDNEY FUNCTION

Looking after the kidneys is one step, but during renal challenges, it's also a good idea to look after the liver, cardiovascular system, and autonomic nervous system. A whole body support is crucial for healing.
