

VACCINE, HEARTWORM & DETOX PROGRAM

I believe minimal vaccination is an important part of pet health, and it is important to help prevent potential vaccine reactions.

PREVENTIVE MEDICINE

Protecting your pet from vaccine reactions is simple if you have Thuja on hand. Likewise, heartworm prevention prevents many dog deaths every year, but be sensible about what your pet's exposure risk is.

If you need prevention, use the simplest oral medication with the least number of ingredients. Like Heartgard or its generics.

Helping the liver clean out prevents many of the side effects, and supports your pet's liver.

Thuja is used by homeopathy as a master detoxifier.

Here, I recommend using the mother tincture to prevent vaccine reactions.

Shake Well. Give 1 drop per 10 pounds of body weight 2 times daily for 5 days after vaccinations.

REDUCE INFLAMMATION

Consuming a balanced amount of Omega-6/Omega-3 fatty acids (also known as a lower Omega-6/Omega-3 ratio) can provide a number of health benefits.

The EPA and DHA help maintain cardiovascular health, promote healthy serum triglyceride levels, and enhance cognitive health. The DHA helps with proper brain function by influencing the neural membranes.

DETOXIFY

Activated Charcoal has been used for centuries to ease gas and bloating, and has been found to adsorb toxins produced by bacteria, and products of the Immune system response to disease.

OPTIMAL NUTRITION

If you haven't started home-cooking for your pet, The Original CrockPet Diet is the safest, healthiest and easiest diet for dogs and cats to make at home. The Original CrockPet Diet is also complete and balanced for all life stages according to AAFCO standards.

WHOLE BODY SUPPORT

Glandular supplements can be a vital component of a fully balanced diet. Many essential nutrients cannot be obtained from plants and meats alone.

A high-quality gland-based multivitamin can fill in all of the missing holes in your pet's diet, and support the endocrine system with essential raw materials to keep it working efficiently.
